

15 March 1963

Professor William L. Garrison
Department of Geography
Northwestern University
Evanston, Illinois

Dear Professor Garrison:

I am forwarding three applications for the Conference on Computer Methods. None of the three is applying for a stipend grant and so presumably would be considered in addition to the thirty grant applicants.

If the applicants are admitted to the conference, we shall pay travel and per diem as well as registration or tuition fees if there are any.

I appreciate your promptness in forwarding the application forms. Since we are quite interested in keeping up to date on computer methods in geographic research, I hope that you will find it possible to admit our applicants to your conference.

Sincerely yours,

(signed)
